1. Section II, STATEMENT OF FACTS, is revised to add the following paragraphs:

15. On May 10, 2016, Bertch Cabinet submitted air quality construction permit applications to DNR in compliance with the requirements of Administrative Consent Order No. 2016-AQ-02. On May 27, 2016, air quality construction permits were issued by DNR. Those permits contained the emission points characteristics contained in Table 1 and the emission limits contained in Table 2 of Administrative Consent Order No. 2016-AQ-02.

16. OnJuly 5, 2016, Bertch Cabinet submitted to DNR air quality construction permit applications to allow Bertch Cabinet to modify the emission point characteristics of Emission Points PLY-004 and PLY-005, so that they will no longer comply with the requirements contained in Table 1 of Administrative Consent Order No. 2016-AQ-02. DNR has conducted air quality dispersion modeling, and has determined that the requested permit modifications may be issued.

17. Table 1, therefore, is revised as follows to reflect the modified emission point characteristics for Emission Points PLY-004 and PLY-005. Table 1, as revised by this Amendment, shall replace Table 1 in Administrative Consent Order No. 2016-AQ-02 in its entirety, and any references to or obligations associated with Table 1 contained in Administrative Consent Order No. 2016-AQ-02 shall be completed by Bertch Cabinet using revised Table 1, below:
