Des Moines IA 50309

Dear Ms Schmitz:

The Contaminated Sites section of the Iowa DNR has received the tier 2 report for the Former Checker Location in Huxley Iowa. After careful review our department has decided to require semi-annual monitoring for this site to ensure that moving the well outside of the plume is adequate. The first round of sampling should commence in the 4<sup>th</sup> quarter of the year 2001 and the results sent to the department in the first quarter of 2002.

If you have any questions or concerns please call 515-242-5084.

Sincerely,

A handwritten signature in cursive script that reads "Piper Sullivan".
