Re: Wiese Corporation

Dear Mr. Lundberg:

Enclosed please find a copy of the Phase I and Phase II Site Assessment which has just recently been completed for the Wiese Corporation property located in Perry, Iowa. As you can see from the Phase II, there has been some extremely low level contamination identified.

Wiese Corporation is in the process of selling the property. We would like to have closing within the next ten days if possible, however, we are in need of obtaining direction from your office. Please let me know, at your earliest convenience, if DNR would issue a no further action letter for this site or, if not, what further activity should be considered. Thank you for your help in this matter.

Sincerely,

Charles F. Becker
