RE: Mayfair Cleaners, Ames Iowa

Dear Mr. Rankin:

I have received your 2002 Analytical Results Report and still have a few concerns. Two years ago I requested wells MF3 and MW6 be re-tested and received no response. The sampling event in the 2002 Report will suffice for this requirement. Both this and last year's results show a significant increase in the contaminates of concern at your site. The levels of benzene, tetrachloroethylene, MTBE and ethylbenzene need to be addressed.

Mayfair Cleaners must to develop a remediation plan in accordance with Chapter 133 of the Iowa Code to lower these contaminate levels. The State of Iowa Department of Natural Resources will expect this plan within 60 days after receipt of this letter.

If you have any questions or concerns please feel free to call me at 515-242-5084.

Sincerely,

A handwritten signature in cursive script that reads "Piper Sullivan".
