Dear Mr. Krejci:

I am writing as a follow-up to our July 16, 1999 meeting concerning the Aramark facility in Waterloo, Iowa. The department does not object to an environmental easement on the property. However, because that area is a protected groundwater source, the department would like to continue monitoring at the site to ensure the contaminant levels continue on a downward trend.

Please proceed with the 2000 annual sampling and forward the results to us as available. The department will remain open to re-evaluation of the site if results to the 2000 sampling event indicate a change is necessary.

If you have any questions or concerns, please call me at (515) 242-5084.

Sincerely,

Barbara Wethington
