

REMEDIAL SITE ASSESSMENT DECISION - EPA REGION 7

SITE NAME: Pacific Activities Limited Site

EPA ID#: IAD005481197

Alias Site Names: None Known

City: Davenport

County or Parish: Scott

State: Iowa

Refer to Report Dated: September 20, 1999 Report type: Preliminary Assessment

Report developed by: U.S. Environmental Protection Agency

DECISION:

☒ **1. Further remedial site assessment under CERCLA (Superfund) is not required because:**

☒ 1a. Site does not qualify for further remedial site assessment under CERCLA
☐ 1b. Site may qualify for further action, but is deferred to:
No Further Remedial Action Planned (NFRAP)

☐ **2. Further Assessment Needed Under CERCLA:** 2a. Qualifier: ☐ Higher ☐ Lower ☐ Part of NPL Site
☐ Referred to Removal, Needs More Remedial ☐ Referred to Removal, No Further Remedial
2b. Activity Type: ☐ PA ☐ SI ☐ ESI ☐ HRS evaluation
☐ Other: _____

DISCUSSION/RATIONALE:

Based on information contained in the Preliminary Assessment completed by the EPA (dated September 20, 1999) no significant threats appear to remain at the site. An Administrative Order on Consent (AOC) and final closure plan was agreed to by EPA and Pacific Activities Limited in June 1995. In summary the work at this site under the order consisted of grid sampling and excavation and/or capping of heavy metal contaminated soil. A May 22, 1997 letter from EPA to Pacific Activities Limited acknowledged completion of the Administrative Order on Consent. IDNR is providing oversight for the sampling for the monitoring wells which were installed on site. Sampling of these monitoring wells is covered under the closure plan. This site will be given an "N" qualifier representing the NFRAP designation (no further remedial action planned by EPA). If new information becomes available or site conditions change this site could be placed back on active status.

Report Reviewed and Approved by: Donald F. Hamery Signature: [Signature] Date: 9/22/99
