**RE: Contaminated Soil Disposal
Highway P59 East, Fort Dodge**

Dear Mr. Ostwinkle:

Please find enclosed copies of the landfill receipts for the disposal of the contaminated soil at the Ft. Dodge site. It is my understanding that this should be the final requirement for DNR closure on this situation. One by one, we are getting Giese's messes cleaned up.

If you have any questions, feel free to give me a call on my mobile at 515-249-0127. Thank you.

Sincerely,

AMERICAN CONCRETE PRODUCTS, INC.
