June 19, 2007

Ms. Tami Rice  
Environmental Specialist  
IDNR Contaminated Sites Section  
Wallace State Office Building  
Des Moines, IA 50319-0034

RE: Addendum to work plan for sub-surface investigation at:  
Former American Concrete, 215 Railroad Street, Eagle Grove, Iowa.

Ms. Rice:

Based up on the review comments indicated on the IDNR letter dated June 8, 2007 Shekar Engineering (SE) has the made following changes to the work plan dated June 3, 2007.

- Three additional monitoring wells (MW-5, 6, & 7) will be installed to delineate the extent of contaminant plumes. Attached map indicates the approximate location of the proposed monitoring wells (MW-1 through MW-7).
- MW-5 will be installed to the west of MW-1; MW-6 to the NW of MW-1; and MW-7 to the east of MW-1.
- Soil and groundwater samples collected from MW-1 through MW-7 will be submitted for laboratory analysis using Iowa Method OA-1 & OA-2.

SE will initiate the project immediately following the IDNR acceptance of the work plan. Should you have any questions, or need additional information, please call Mr. Chandra Shekar at 515-334-5062.

Sincerely,

Mr. Chandra Shekar, P.E.  
Iowa Groundwater Professional
