Dear Ms Maher-Lewis:

Thank you for your submittal addressing the additional assessment activities at 1515 East Grand. The Iowa Department of Natural Resources has reviewed the assessment and agrees with Barb Wethington's decision for giving this site a **NO FURTHER ACTION** at this time. The levels of contamination at this site do exceed state action levels, but are not found to be significant. This decision is subject to revision if additional information suggests such a change. The department also notes that a source was not determined through additional testing and may use this information if a change is necessary in the future.

If you have any questions or concerns please call at 515-242-5084.

Sincerely,

A handwritten signature in cursive script that reads "Piper Sullivan".
