Re: EPA RCRA ID# IAD022314496

Dear Mr. Kemp:

On behalf of Bob Cashdollar and Terra Nitrogen's Port Neal plant, thank you for your letter of April 8, 1998. It is our understanding that all issues raised during the November 4, 1997 inspection have been satisfactorily addressed as documented in Mr. Cashdollar's November 18, 1997 letter of response to Mr. Hacker.

We at Terra Nitrogen are dedicated to maintaining compliance with all applicable environmental regulations and are proud of our environmental record. By applying the principles of Waste Minimization and Pollution Prevention, all of Terra Nitrogen's U.S. facilities, including the Port Neal plant, have maintained the status of conditionally exempt small quantity generator (CESQG) for one year or longer and plan to remain CESQG in the future.

Sincerely,

Jim Schellhorn  
Manager of Environmental Affairs
