RE: Wells Fargo – 8th & Mulberry Street, Des Moines

Dear Mr. McGuffin:

The Iowa Department of Natural Resources has reviewed the report titled "Wells Fargo Site – 8th to 9th Street and Cherry to Mulberry Street". The report found no evidence of heavy metals, semi-volatile and volatile organic compound contamination. Based on the information contained in this report, the department will not require any further action on the City of Des Moines for this site.

If you have questions you may contact me at 515-281-4117.

Sincerely,

Lambert A. Nnadi
