Hey Randy,

I have no preference how you send the well abandonment forms. Whatever is most convenient for you is fine for me. We need all of the forms to have in our records.

Thanks again for your help!

Hi Tami,

Yes the wells were properly abandoned in July. Form 542-1226 was filed with the state and county offices August 7, 2007. We filed one for each well. (6 total) Would you want me to mail, fax or email them all or just one?

Best Regards,
Randy

Randy,

I was checking my files and noticed I haven't received any well abandonment forms for the monitoring wells located on the former West Union Coop property at 105 Armour Street. Have the wells been properly abandoned yet? As you may recall, they were not in great condition when they were last sampled so we discussed having them abandoned to reduce the potential for surface contamination to impact groundwater onsite.

If the wells have been abandoned, could you send me a copy of the well abandonment forms for our records?

Thanks so much!

Hope all is well,
Tami
