RE: Iowa Land Recycling Program (LRP) Enrollment Application, Participation Agreement and initial Assessment Work Plan for Loparex Inc., Iowa City, Iowa

Dear Mr. Rieble:

The Contaminated Sites Section of the Iowa Department of Natural Resources (IDNR) has reviewed the Iowa LRP Enrollment Application, Participation Agreement and initial Assessment Work Plan for Loparex Inc. located at 2000 Industrial Road in Iowa City, Iowa. The information was prepared and submitted by MACTEC Engineering of Chicago, Illinois. The receipt of the \$750.00 enrollment fee is acknowledged and the site is now fully enrolled in the Land Recycling Program.

The Department has approved the work plan. While the environmental assessment done to date has identified and focused on recognized environmental concerns (REC) at the facility, the focus of the LRP is on contaminants of concern and the medium affected. The LRP requires that nature and extent (both horizontal and vertical) of the contaminants of concern be fully identified in order to define the affected area. Pending the results of the proposed initial site assessment, further investigation may be required. Please find an enclosed copy of the signed PA for your records.

Please contact me at (515) 242-5084 if you have any questions regarding this situation.

Sincerely,

Hylton Jackson, Environmental Specialist-IDNR

Encl: Signed Participation Agreement
