STATE OF IOWA

CHESTER J. CULVER, GOVERNOR  
PATTY JUDGE, LT. GOVERNOR

DEPARTMENT OF NATURAL RESOURCES  
RICHARD A. LEOPOLD, DIRECTOR

October 12, 2009

Chad Loecke  
Three Rivers FS  
PO Box 248  
Earlville, IA 52041

Dear Mr. Loecke,

This letter is to inform you that the IDNR has received and reviewed the Site Monitoring Report (3rd Quarter 2009) for the Three Rivers FS Company site facility located at 305 North Central Avenue in Epworth, Iowa. The IDNR notes results of this monitoring report are consistent with previous ground water data indicating the presence of nitrate contaminated ground water in excess of state standards in monitoring wells #2 and #3.

Due to the detection of nitrate in these two monitoring wells in excess of the state standard, the IDNR directs you to conduct annual monitoring from monitoring wells #2 and #3 for 2010 and 2011 and to submit (annual) reports to the IDNR Contaminated Sites Section for review and approval. Upon receipt of the 2011 monitoring report the IDNR will determine if further monitoring is required. At this time monitoring from wells #1, #4 and #5 may be terminated and must be properly abandoned. Please complete and submit to the IDNR the well abandonment form (542-1226) which may be found on the IDNR Contaminated Sites Web site at the following address: <http://www.iowadnr.gov/land/ust/documents/abanwaterwell5421226.pdf>

Please contact me at 1-515-242-5087 if you have any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "Matthew Culp".

Matthew Culp  
IDNR
