Mary,

I've made a note in the file that the report may be late. Thanks for keeping me informed.

Hope you have a great weekend,

Tami

Good Morning Tami –

Regarding the Crawford site in Knoxville Iowa. During the last sampling event in March one of the monitoring wells was under a HUGE pile of snow and we were unable to find it or sample it. We are planning on sampling that last well during the Easter holiday – so the SMR may be a bit late – could you move the due date back a bit.

Thanks –
Mary
