RE: Land Recycling Program No Further Action Certificate (NFAC) for the Capital Sanitary Supply facility located at 70 College Avenue, Des Moines, Iowa

Dear Ms Palar:

Enclosed is a signed and notarized Iowa Land Recycling Program NFAC for the Capital Sanitary Supply facility located at 70 College Avenue, Des Moines, Iowa. This site has successfully completed the Iowa's LRP program. Even though there are no use or deed restrictions on the property and recording the NFA is not required, it is strongly suggested that the enclosed document be recorded against the property deed. Doing so will provide anyone with current or future interest in the property with proof that the environmental issues identified in the past have been adequately addressed. Since this will conclude the successful completion of the LRP program, please verify that all onsite monitoring wells have been properly plugged and abandoned.

Please contact me if you have any questions or comments regarding this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Hylton Jackson".

Hylton Jackson, Environmental Specialist-IDNR

Encl: Signed and notarized NFAC
