Re: Revised Excavation Report, Former Amoco No. 31698, 1620 Main Street,
Keokuk, Iowa (LUST #8LTL11) dated March 1, 2012

Dear Mr. Smail:

The Iowa Department of Natural Resources, Contaminated Sites Section, has received and reviewed the above referenced revised excavation report and approves the report as written with some reservations. The Department still feels the replacement monitoring wells were drilled too shallow but will rely on the 24 month monitoring period to validate your professional judgment.

If you have any questions or need further information please feel free to call or e-mail at (515) 281-4171 or dan.cook@dnr.iowa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "D. Cook", written over a horizontal line.

Daniel Cook
Environmental Specialist Senior
Contaminated Sites
