Dear Mayor Molle,

This letter is to inform you that the Iowa Department of Natural Resources (DNR) has received and approved the revised proposed Characterization Work Plan for the Bagley Public Library submitted by Terracon Consultants.

The IDNR understands that the historic records search portion of the work plan is to attempt to determine the source of the observed contamination as either from an underground storage(s) tank or from above ground storage tank(s). The outcome of the search may determine if funding is available to address the contamination.

If you have any questions please contact me at 1-515-725-8337

Regards
