Proj: Chariton Former Manufactured Gas Plant Site  
Subj: Ground Water Monitoring Closure Report  
File: SPF-116.A05R

Dear Mr. Lundberg:

Enclosed are two copies of the ground water monitoring closure report for the Interstate Power and Light Co. (Alliant Energy) former manufactured gas plant site in Chariton, Iowa. Based upon the rationale as delineated by the Ground Water Monitoring Program Proposal, no further action or monitoring appears to be warranted for this site. Therefore, IPL requests that a Letter of No Further Action Classification be issued for the Chariton MGP site. After the site is reclassified, the site monitoring wells will be abandoned in accordance with IDNR requirements and a letter will to the City of Chariton outlining the extent of any residual contamination.

Please call me at (319) 786-4658 if you have any questions or comments on the attached report.

Sincerely,

A handwritten signature in black ink that reads "Dean A. Hargens".

Dean A. Hargens, P.E.  
Senior Environmental Engineer  
FMGP Project Coordinator
