Hi Ben

Your request to extend the RAP submittal deadline to December 13th is approved. Please feel free to contact me if you have any questions.

Dan

Mr. Cook

On November 20, Terracon contracted with Agrex to prepare the Remediation Action Plan as was requested by the DNR in the attached letter dated October 31, 2019. Based on the Holiday, we were unable to have a RAP prepared and submitted to IDNR by the end of November as was requested in the letter. Based on the limited time that we had address the RAP, I am hoping that the IDNR will be willing to extend the deadline to December 13. Would this be allowable?

Also, would you be available discuss your thoughts of the needs of the Site for the RAP. I am available anytime on Thursday and Friday afternoon if either of these times work for you? I believe that there may be some preexisting contamination unassociated with the mineral oil release at the Site.

Respectfully,

-Ben
