Dear Ms. Daniels,

This letter is to inform you that the Iowa Department of Natural Resources had completed review of the third of four scheduled quarterly groundwater monitoring reports for the Southern Iowa Oil Bulk Fuel Station. The results of the report will require a fourth (final) quarterly groundwater monitoring event. The Iowa DNR also has received the Environmental Covenant (EC) for the subject property documenting the existing soil and groundwater contamination.

Please contact me if you have any questions at 515-725-8337.

Regards
