Re: Phase II Environmental Site Assessment, Eaton Corporation, Shenandoah, Iowa dated
December 21, 2020

Dear Ms. Sutton:

The Iowa Department of Natural Resources, Contaminated Sites Section, (Iowa DNR) has reviewed the above referenced phase II environmental investigation submitted by Golder Associates Inc. on behalf of the Eaton Corporation. As noted in the phase II's cover letter additional environmental investigations are needed due to groundwater contamination exceeding State of Iowa groundwater action levels. The additional environmental assessment activities will be conducted under the authority of Iowa Code 455E, *Groundwater Protection*, and 567-Iowa Administrative Code (IAC)-133, *Rules for Determining Cleanup Actions and Responsible Parties*. Please submit a site assessment plan as described in IAC-133.2 within 45 days of receiving this letter.

If you have any questions or need further information please feel free to call or e-mail at (515) 725-8371 or dan.cook@dnr.iowa.gov.

Sincerely,

A handwritten signature in blue ink that reads "D Cook".

Daniel Cook
Environmental Specialist Senior
Contaminated Sites Section
