Jens Matzen – Equipment Operator

All,

Excavation will begin 05/18/2022 09:00AM

On site persons will be:

NAME	Company	Phone
Dan Cook	Iowa DNR	515-537-4025
Matt Thoene	Enviromark	563-650-0826
Jens Matzen	Enviromark _ SC	
Dan Carstens	Enviromark	563-528-1489

No material will be removed from the location on these date. Impacted soil will be stockpiled until the removal has been completed.

This will be followed by transport as necessary depending on volume.

Thank you,

Dan

Subject: Muscatine Firing Range cleanup communication

First of all, thanks to everyone for attending a short kickoff meeting to discuss the firing range cleanup activities. As we discussed, we have received permission from the authorities to proceed as early as May 15th and must conclude by July 13th.

PLEASE USE THIS EMAIL STRING AS WE COMMUNICATE throughout the discussions regarding range cleanup activities and importantly our train schedules as they may impact the project.

For starters, Tony Kies (MPD), Dan Carstens (Enviromark) and myself (Neal Nelson) will be major points of contact for this project communication however in our absence, the project needs to carry on so others will need to jump in during those times.

Everyone on this email string will be impacted at some point so keep that in mind and help out where appropriate.

MPW Environmental Services personnel will need to sign the manifests for EVERY LOAD OF SOIL REMOVED from the site. Those individuals are listed below:

- Jean Brewster- Manager- Environmental Affairs
- Sam Bennett- Environmental Specialist
- Neil Hoskins- Environmental Specialist

Other project personnel:

6/15/22, 12:20 PM

State of Iowa Mail - RE: Muscatine Firing Range cleanup communication

- Dan Carstens- Project lead- Enviromark
- Tony Kies- Project lead- Muscatine Police Department

MPW Operations personnel:

- Rob Wheeler- Operations Supervisor (563-262-3506)
- Scott Clester- Material Handling Supervisor (563-262-3549)
- Brian Kurriger- Gate Guard (563-262-3539)
- Neal Nelson- Manager- Power Production (563-262-3503)(563-506-2712 cell)

Scott Clester and Rob Wheeler along with myself will attempt to communicate the coal train schedules so that an effective loadout schedule can be maintained.

For gate access we will need each person to provide a valid driver's license when they arrive each day per our security protocols. We will also make our truck scales available to insure trucks are not sent offsite over the DOT limits. Brian at the gate can accommodate the drivers for that service.

Brian will keep a copy of each one of the scale tickets for our record keeping. Brian, please forward those scale tickets to Rob when the project is completed.

Again, all communication during this remediation event should be included in this email string.

Thank you,

Neal Nelson | Manager- Power Generation
