EPA ID # IAD981718000

Dear Ms. Harvey:

This letter acknowledges receipt by the U.S. Environmental Protection Agency Region 7 of the following Safety-Kleen Systems, Inc.'s Resource Conservation and Recovery Act (RCRA) financial assurance documents for the referenced Safety-Kleen Systems, Inc. facilities in Iowa:

- Original signed Certificates of Insurance for Closure and/or Post Closure that show the facilities' costs for closure care provided under insurance policy CPE E601041 02 with the Great American Insurance Company, policy period is July 31, 2022 - July 31, 2023, transmitted to the EPA in a letter dated July 25, 2022. The face amount of the policy is \$374,865 and covers the closure costs for both facilities.

A review of the Certificates documents that the closure cost estimates, previously approved by the EPA for the two referenced Safety-Kleen Systems, Inc. facilities, were properly adjusted for inflation in accordance with each facility's RCRA Operating Permits (Permit Condition III.M. - Cost Estimate for Facility Closure and Permit Condition III.N. - Financial Assurance for Closure) and the financial assurance regulations (40 CFR 264.142(b)). The RCRA Permit Conditions are the same conditions in each referenced facility's Permit. Note, Safety-Kleen's transmittal letter has several typos in the calculations for the closure cost estimates, but the certificates document the correct adjusted cost estimates.

Please be mindful that Safety-Kleen Systems, Inc. is responsible for continuing to maintain compliance with each referenced facility's RCRA Permit and all hazardous waste regulations.

If you have any questions pertaining to this matter, please contact Patricia Murrow at (913) 551-7627, by email at murrow.patricia@epa.gov or at the letterhead address.

Sincerely,

DeAndré Singletary
Director
Land, Chemical & Redevelopment Division
