STATE OF IOWA

THOMAS J. VILSACK, GOVERNOR
SALLY J. PEDERSON, LT. GOVERNOR

DEPARTMENT OF NATURAL RESOURCES
JEFFREY R. VONK, DIRECTOR

March 24, 2003

Mr. Roy Ridener
City Administrator
City of Mapleton
513 Main Street
Mapleton, IA 51034

Dear Mr. Ridener

This letter is to follow up on our telephone conversation on March 24, 2003. Enclosed are two maps. The first map is of the leaking underground (petroleum) storage tank (LUST) sites in Mapleton. These sites are dealt with through the UST/LUST program of which I am not a part of so I don't know the status of these sites however you can contact Verne Schunk with the LUST program (1-515-281-6704) for further information.

The other map indicates the location of the former bulk facility that the Contaminated Sites section will evaluate for potential impact to the city well field. We will be sampling wells on the old bulk plant site as well as collect raw ground water samples off site on April 10th to determine if there is any threat to the city well field. We will share the results of those samples when they become available in two to three weeks after they are collected.

Please forward this letter to the appropriate person(s) at the Anderson Construction Company.

Sincerely,

A handwritten signature in dark ink, appearing to be "M. Culp", written in a cursive style.

Matthew Culp
IDNR
