Re: Midwest Manufacturing/North Farm Site – November 2022 Groundwater Monitoring and Site Inspection Report

Dear Ms. Brickman:

The U.S. Environmental Protection Agency has received the document titled “Groundwater Monitoring and Site Inspection Report, November 2022”, (dated March 2, 2023) for the Midwest Manufacturing/North Farm site in Kellogg, Jasper County, Iowa. The document was developed by ClearPath Consultants JV (ClearPath/ENSAFE) on behalf of the EPA under EPA Contract No.: 68HE-01-18-D0013 for the Midwest Manufacturing/North Farm site in Kellogg, Jasper County, Iowa. The document was received by the EPA (via email) on January 12, 2023. The EPA and the Iowa Department of Natural Resources (IDNR), Contaminated Sites Section, reviewed the original draft submission received on January 12, 2023, and provided a comment (via email) on February 21, 2023. The comment provided on February 21, 2023, has been adequately addressed in the draft dated March 2, 2023. The EPA hereby provides approval of the document.

If you have questions regarding this or any other issue pertaining to this site, please contact me at (913) 551-7848 or by e-mail at johnson.bradley@epa.gov.

Sincerely,

Brad Johnson
Remedial Project Manager
