# UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION VII  
901 NORTH 5TH STREET  
KANSAS CITY, KANSAS 66101

24 DEC 2002

Mr. Cal Lundberg  
Supervisor, Uncontrolled Sites  
Iowa Department of Natural Resources  
Wallace State Office Building  
502 E. 9th Street  
Des Moines, Iowa 50319

Dear Mr. Lundberg:

As you know, when the Environmental Protection Agency (EPA) and the State have concluded all investigative and/or cleanup activities at a site, that site becomes eligible for "Archiving" from the active Comprehensive Environmental Response Compensation and Liability Information System (CERCLIS) data base. Archiving represents a site-wide decision or status indicating that no further interest exists at the site under the federal Superfund program based on available information. It is a comprehensive decision that no further site assessment, remedial, removal, enforcement, cost recovery, or oversight activities are being planned or conducted at the site. Archiving requires concurrence from the responsible Remedial Project Manager (RPM)/On-Scene Coordinator (OSC)/Site Assessment Manager (SAM) for the site, the EPA's Cost Recovery Unit, the EPA's Site Assessment Team Leader, the State Environmental Department, and lastly from the EPA's Information Management Coordinator.

Archive Note Forms and site information for the following sites are enclosed for your review and signature:

|     | <u>SITE ID #</u>       | <u>SITE NAME</u>                    |       |

2002 DEC 30 A 10: 59

DEPT. OF  
NATURAL RESOURCES

These Archive Note Forms have been signed by the RPM/OSC/SAM, the EPA's Site Assessment Team Leader and the EPA's Cost Recovery Unit. Please review the forms and sign them (in the location designated for State concurrence) if you concur with archival of these sites. If you do not believe archival of a site is appropriate, please respond with your reasons for not concurring on that site.

The archiving of sites from the active CERCLIS data base is an important annual program measures for our Region. I would appreciate it if you could return these forms to me by April 30, 2003. If you have any questions or comments, please call me at (913) 551-7568.

If you have any questions or comments, please call me at (913) 551-7568

Sincerely,

A handwritten signature in black ink, appearing to read "Ronald King", with a stylized flourish extending to the right.

Ronald King

All Cost Recovery actions have been completed.

{final billing sent & collected, referral completed, DD completed}

☒ Yes ☐ No ☐ N/A

All existing monitoring wells closed in accordance with State Regulations.

Date of final well closure: \_\_\_\_\_

☐ Yes ☐ No ☐ N/A

*If any of the above questions have a no response, site does not qualify for archival.*

**DISCUSSION/RATIONALE FOR ARCHIVAL:**

See Attached Decision Document not to Cost Recover and the CERCLIS printout for the site.

The site was used from 1985 to 1991 by the Triggs Trailer corporation, Kanawah, Iowa, as a manufacturing facility for horse and general livestock trailers. Metal frames for trailers were conducted at a sister plant in Belmond, Iowa, then shipped to the Kanawha facility where fiberglass shells were fabricated, painted, and attached to frames. Xylol was used in the manufacturing process. Xylol is a solvent containing xylene, toluene, and acetone. Removal actions completed under included assessment, characterization, and off-site disposal of drums and containers containing hazardous substances. A removal action at the site has been completed (May 11, 1995).

EPA gave the Triggs Trailer - Kanawah site a NFRAP designation in 1995. No further response under CERCLA/SARA is required. The site has been NFRAPed, and archiving is appropriate.
