**Re: HON Oak Street Plant, 301 Oak Street, Muscatine, IA  
Contaminated Sites Database Site ID No. 67  
Free Product Report Review**

Dear Mr. Capan,

The Iowa Department of Natural Resources (DNR) has received Free Product Summary Reports from the 3<sup>rd</sup> and 4<sup>th</sup> quarters of 2023; thank you for your submissions. Based off the summary reports, free product monitoring continues to be completed at MW-11 and MW-13 with active recovery ongoing at MW-11. Additionally, semi-annual monitoring is being completed at multiple onsite wells to ensure no product plume migration.

Recovery totals are in line with recent events, with fluctuating product levels noted at MW-11. Despite recent fluctuation, product levels generally show a declining trend at the site. Please continue recovery and monitoring efforts in accordance with the 2010 Work Plan and subsequent revisions.

Feel free to contact me with any questions at [\(515\) 721-7024](tel:5157217024) or by email at [andrew.carver@dnr.iowa.gov](mailto:andrew.carver@dnr.iowa.gov).

Sincerely,

Andrew Carver, CGP# 2106
