**Re: Chauncey Building (404-408 E College St, Iowa City, IA 52240)
Contaminated Sites Database Site ID No. 2407
Well Plugging and Site Closure**

Dear Mr. Havel

This letter is to inform you that the Iowa Department of Natural Resources (DNR) has received the Abandoned Water Well Plugging Records ([Doc #41550](#)) for the Chauncey Building site located at 404-408 E College St, Iowa City, IA 52240.

After review, apart from the presence of cis-1, 2-dichloroethene and acetone in the initial survey in September 2021, none of the requested five sampling events showed any constituents above minimum laboratory detection limits. Based on these findings, and with the proper abandonment of the monitoring wells, DNR believes that all requirements have been met under chapter 133. The site will be marked closed in our database, and this will be reflected on the website.

If you have any questions or need further information please feel free to contact me at [515-415-1331](tel:515-415-1331) or by email at brad.davison@dnr.iowa.gov.

Sincerely
