**Re: Environmental Covenant  
Diamond Oil Company (2006, 2018, and 2028 Edison Street, Ames, Iowa 50010)  
Iowa DNR Contaminated Site 2826**

Dear Ms. Morris:

On March 4, 2025, the Iowa Department of Natural Resources (DNR) Contaminated Sites Section received a file-stamped and fully executed official copy of an environmental covenant (EC) ([Doc #42370](#)) for the Diamond Investment Properties LLC site, located at 2006, 2018, and 2028 Edison Street, Ames, Iowa 50010) (Story County Recorder document number 2025-00699). DNR Contaminated Sites staff, as well as DNR Legal staff reviewed and approved the document prior to signing and filing with the deed to the property.

Based on the information presented above, and in previous document submissions for the site, DNR has determined that no additional work related to petroleum contamination is necessary at this time. Please note that this judgement is based on best available information provided to the DNR as of the date on this letter, and this judgement is subject to revision, if additional information indicates such a change is warranted. The site is considered "closed", and DNR records will be updated to reflect the change.

If you have any questions or need further information please feel free to contact me at [515-415-1331](tel:515-415-1331) or by email at [brad.davison@dnr.iowa.gov](mailto:brad.davison@dnr.iowa.gov).

Sincerely,

Brad Davison
