Hello Ms. Miller,

I left you a voicemail earlier today. Please proceed with sending DNR a written response to our letters regarding the contamination at 352 Ferry Rd. DNR staff are able to commit to providing field screening of soil removal on-site with a Photoionization detector (PID).

Please let us know if you have any questions.

Sincerely,

**Mike Sullivan**, CPM

Hello Brad,

I spoke with Mr. Sullivan today. I forwarded some text messages and pictures between Brian Jorgensen and myself so he could review those and call me back.

I understand 2 letters were sent to my home address in April or thereabouts, however, I closed on my home April 12 and did not receive the letters. There has been some mix up at the postal service regarding my change of address and to date, I am still not receiving forwarded mail.

I am providing my father's address as a mailing address:

Carli Miller

C/O Gerald Barnstable

450 W Macon St. Apt #1

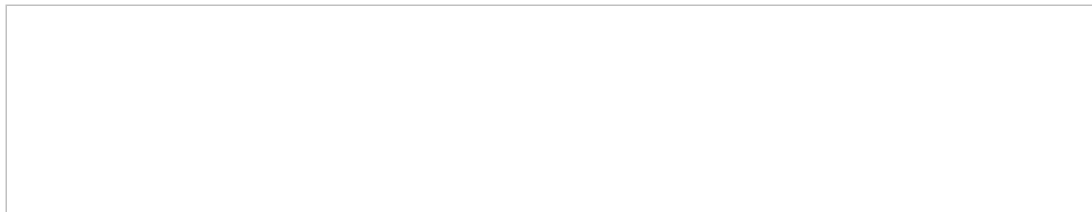

Decatur, Illinois 62522

I would like some additional time to review the letter and will respond. It is my intention to fully cooperate with any abatement.

Thank you,

Carli J. Miller

Good afternoon Ms. Miller.

Please find the attached "Report of Investigation" letter concerning a suspected petroleum release at [352 Ferry Rd, Miles, IA, 52064](#). Please read the letter and respond no later than May 11, 2024 with your intentions on how to proceed. A mailed copy of the letter may arrive as well. You may

disregard that copy as it will be identical to the attached document.

Please let me know of any questions or concerns.

Thank you.
