Contaminated Sites Database Site ID No. 1928  
Notification of Program Change**

Dear Mr. Noah:

The Iowa Department of Natural Resources, Solid Waste and Contaminated Sites Section (DNR) is providing this letter to inform you that the Noahs Cleaners Site will be transferred from the Extended Site Screening Program to the State Lead Program ([567 IAC 133](#)). At this time, the transfer to the State Lead Program is not expected to result in a substantial change to actions being completed at the site and no additional actions are required from you. Groundwater monitoring will continue as it has been to determine plume stability and any future actions, if necessary. If any additional actions are required in the future, DNR will provide a letter explaining those requirements.

If you have any questions or if we may be of further assistance, please contact me at [\(515\) 415-0889](#) or [jake.bucklin@dnr.iowa.gov](mailto:jake.bucklin@dnr.iowa.gov).

Sincerely,

Jake Bucklin
