Dear Mr. Ostby:

Thank you for the submittal of the Exposure Assessment and Remedial Action Proposal for the site referenced above.

We apologize for the delayed review of the project. As discussed previously, the Iowa Health Department is conducting a health consultation of the site in order to determine the threat of exposure at the site. Although we have not received the final report at this time, we have decided that you may proceed with capping the site as detailed in the April 13, 2006 Remedial Action Proposal. This proposal included a clean cap of two-feet in depth overlaying Area-3 and Area-4 as depicted in your proposal.

Please submit a final capping report to the Department upon completion. Feel free to contact me if there are any questions, comments, or concerns at 515-281-4420.

Sincerely,
