Mr. Lambert Nnadi
Senior Environmental Specialist, Contaminated Sites Section
Iowa Department of Natural Resources
Wallace State Office Building
Des Moines, IA 50319

Subject: Submittal of the Drinking Water Source for former Thermogas facility in Fruitland, IA

Dear Mr. Nnadi:

In the DNR letter dated May 10th, 2004, additional information was requested on the specific source of drinking water at the above referenced facility. Blue Flame Propane LLC stated that Sprouse Distributing Inc. supplies their drinking water, see attached letter from Blue Flame LLC.

Retail sales of bulk and/or packaged row crop production products ceased in 1996. The site is presently operated as a propane distributorship. Current receptor surveys did not reveal any designated use water bodies in the site vicinity. The on-site well is not used as a drinking water source. All other located wells are at a significant distance from the site and not considered a risk at this time. Based on this information we would like to request that the site be granted no further action status at this time.

If you have any questions regarding this data, please call me at 515-261-7722.

Sincerely,
Seneca Environmental Services
