

Iowa Department of Natural Resources

Donation Form

The Iowa Department of Natural Resources creates recreational opportunities for Iowans, cares for state parks and forests, and manages wildlife and fish populations for future generations. The DNR does this in partnership with many organizations and individuals. You can help make a difference. If you have any questions, please [contact us](#).

**Please send a copy of this completed form,
along with your check made payable to Iowa DNR to:**

In Dedication to (if applicable):					
Amount of Donation:	\$				

Please choose one of the donation options below:

Please apply my donation to the Fish & Wildlife Trust Fund

Many Iowans have lifelong memories enjoying Iowa's outdoors in the field or on the water. When you donate to Fish & Wildlife, you are helping the future of outdoor recreation in Iowa. This fund is constitutionally protected and supports research, management and education activities for fishing, hunting and outdoor safety. From fish hatcheries to wildlife habitat, your donation can help maintain Iowa's strong outdoor traditions.

Please apply my donation to Parks, Forests, and Preserves

Imagine the bluffs of the Mississippi, the caves of Maquoketa, and the trails of the Loess Hills. When you support Iowa's state parks and forests, you help create a legacy for Iowa's most special natural places. Donations to parks and forestry support recreation for the young and old, from hiking and camping to bird watching and bicycling. You can help Iowa sustain its rich natural history, no matter where your favorite Iowa state park, forest, or preserve might be.

Please apply my donation to the Wildlife Diversity program

The DNR's Wildlife Diversity program works to conserve more than 1,000 nongame species found in Iowa, including raptors, songbirds, amphibians, reptiles, bats, butterflies, dragonflies and more. Program funding helps provide research, surveys, habitat development, education, and other activities to protect these diverse and important native species.
