

LAKE MANAWA LAW ENFORCEMENT
BOAT STORAGE ADDITION
POTTAWATTAMIE COUNTY, IOWA
PROJECT NUMBER: 22-04-78-03

November 28, 2022

This Addendum is issued to modify, explain or correct the original Drawings and Specifications, and is hereby made a part of the Contract Documents. Please attach this Addendum to the Project Manual in your possession. Insert the number and issue date of this Addendum in the blank space provided on the Proposal Form.

Specifications:

- A. Specification Section 00812 – Special Provisions, shall be added to the project manual for this project and all specification requirements shall be followed.
 - a. Contractor shall have the building manufacturer certify that all steel and steel products comply with this specification section and “Build America, Buy America Act” (Section 70914 of the Infrastructure and Jobs Act, Public Law Number 117-58). The following list is not comprehensive of all requirements of this law but as an example of what the contractor must do to comply.
 - i. Contractor shall certify, in writing, that all iron and steel products will comply with this law.
 - ii. Building manufacturer shall certify, in writing, that all iron and steel products will comply with this law in the manufacture and install of this storage building.

List of items for certification

- 1. Concrete Reinforcement
- 2. Steel siding, roofing, gutters
- 3. Steel walk-through and overhead doors
- 4. Steel hardware, bolts, screws, etc.
- 5. Steel or iron containing products (eg – light fixtures, hydrant, etc)

PART 1 - GENERAL

1.01 RELATED DOCUMENTS:

- A. Drawings and General Provisions of the Contract, including the General Covenants and Provisions, Supplementary Covenants and Provisions, and General Requirements.

1.02 GENERAL:

- A. Special Condition:

1. Build America, Buy America Act:

This project shall comply with section 70914 of the Infrastructure Investment and Jobs Act, Public Law Number 117-58, which includes the Build America, Buy America Act. Section 70914 of this act requires the following Buy America Preference:

- a. All iron and steel used in the project are produced in the United States. This means all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
- b. All manufactured products used in the project are produced in the United States. This means the manufactured product was manufactured in the United States, and the cost of the components of the manufactured product that are mined, produced, or manufactured in the United States is greater than 55 percent of the total cost of all components of the manufactured product, unless another standard for determining the minimum amount of domestic content of the manufactured product has been established under applicable law or regulation.
- c. All construction materials are manufactured in the United States. This means that all manufacturing processes for the construction material occurred in the United States.

The Buy America preference only applies to articles, materials, and supplies that are consumed in, incorporated into, or affixed to an infrastructure project. As such, it does not apply to tools, equipment, and supplies, such as temporary scaffolding, brought to the construction site and removed at or before the completion of the infrastructure project. Nor does a Buy America preference apply to equipment and furnishings, such as movable chairs, desks, and portable computer equipment, that are used at or within the finished infrastructure project, but are not an integral part of or permanently affixed to the structure.

Any waivers from these requirements must be in writing and meet the requirements of section 70914(b) of the Build America, Buy America Act.

The fabricator/supplier of all iron, steel, manufactured products, and construction materials shall provide a letter certifying all of the materials are in compliance the Build America, Buy America Act, and the necessary supporting documentation will be retained by the fabricator/supplier for a minimum of seven years from the time the products are shipped for incorporation into the project.
