RE: Revocation of Operation Permit #9000105, Chamness Technology, Inc. - LAOP

To Whom it May Concern:

The operation permit for Chamness Technology, Inc. - LAOP will be revoked effective October 31, 2025, based on a request from the facility's compliance manager dated October 29, 2025. The request indicates that the company does not need or intend to renew the permit. In addition, the facility submitted a notice of discontinuation for authorization number 3920-3763 under NPDES General Permit #1, and staff from DNR Field Office #6 have confirmed that the leachate lagoons have been eliminated. Therefore, monitoring and reporting are no longer required and the operation permit is hereby revoked, effective October 31, 2025.

**You have the right to appeal this decision to revoke the permit by filing a written notice of appeal and request for administrative hearing with the director of this department within 60 days of this action. If you do not file an appeal, this decision will be considered final at the end of the appeal period.**

If you have any questions concerning this letter or the permit revocation, please contact me at 515-322-2157 or [courtney.cswercko@dnr.iowa.gov](mailto:courtney.cswercko@dnr.iowa.gov).
