Subject: RE: Schedules Update

Yes. They are in the information (paper) gathering & analysis stage. They would like to schedule the actual monitoring for next spring because they fear no rain in the summer & fall. That was not the case last year but I am not a weather expert...

Thanks for the update. Has McClure started their project yet?

Subject: Schedules Update

Jim,

I am in the process of putting together the schedules update you requested at our last meeting. Now that all of the submissions are in for the sludge tank & generator, I have asked Dave Fredericks to update the charts.

Thanks,

Ellen Myers
