RE: UNDERGROUND STORAGE TANK INSPECTION

Enclosed you will find an Underground Storage Tank Inspection prepared by personnel of this office. This inspection is a routine inspection made to determine compliance with this department's regulations.

You will find the inspection report self-explanatory. We encourage you to make every effort to comply with the recommendations and/or remarks.

Should you have any questions, do not hesitate to write or call this office.

Sincerely,

ENVIRONMENTAL PROTECTION DIVISION

Joe Sanfilippo
Environmental Specialist

GENERAL INFORMATION

Registration is required by Iowa law for all underground tanks that have been used to store regulated substances since January 1, 1974, that are in the ground as of July 1, 1985 or that are brought into use after July 1, 1985. The information requested is required by Chapter 135 of the Iowa Administrative Code (567-455B) and Iowa Code Section 455B.473.

The primary purpose of this registration program is to locate and evaluate underground tanks that store or have stored petroleum or hazardous substances. It is expected that the information you provide will be based on reasonably available records, or, in the absence of such records, your knowledge, belief, or recollection.

WHAT TANKS ARE INCLUDED

Underground storage tank is defined as any one or combination of tanks that

(1) was ever used to contain an accumulation of "regulated substances,"
(2) whose volume (including connected underground piping) is 10% or more beneath the ground.

Some examples are underground tanks storing:

(1) gasoline, oils, or diesel fuel, and
(2) industrial solvents, pesticides, herbicides or fumigants.

WHO MUST REGISTER

YOU NEED NOT REGISTER IF ...

1. Your tank was taken out of operation and properly closed prior to January 1, 1974.
2. Your tank was removed from the ground prior to July 1, 1985.

YOU MUST REGISTER IF ...

1. Your tank is in use or was taken out of operation after January 1, 1974.
2. Your tank was installed after January 14, 1987, you must notify within 30 days of installation.

SMALL MOTOR FUEL TANKS

Definition - A farm or residential tank of 1,100 gallons or less used for storing motor fuel for noncommercial purposes.

1. If your tank was installed on or after July 1, 1987, you must register within 30 days of installation.
2. If your tank existed prior to July 1, 1987, you must register by July 1, 1989.

WHAT TANKS ARE EXCLUDED

1. tanks removed from the ground prior to July 1, 1985;
2. tanks used for storing heating oil for consumptive used on the premises where stored;
3. septic tanks;
4. pipeline facilities (including gathering lines) regulated under the Natural Gas Pipeline Safety Act of 1968, or the Hazardous Liquid Pipeline Safety Act of 1979, or which is an intrastate pipeline facility regulated under state laws;
5. surface impoundments, pits, ponds, or lagoons;
6. storm water or wastewater collection systems;
7. flow-through process tanks;
8. liquid traps or associated gathering lines directly related to oil or gas production and gathering operations;

(Continued)

9. storage tanks situated in an underground area (such as a basement, cellar, mineworking, drift, shaft, or tunnel) if the storage is situated upon or above the surface of the floor;
10. any UST system of 110 gallons or less capacity;
11. any UST system holding hazardous wastes listed or identified under Subtitle C of the Solid Waste Disposal Act, or a mixture of such hazardous waste and other regulated substances;
12. any wastewater treatment tank system that is part of a wastewater treatment facility regulated under Section 402 or 307(b) of the federal Clean Water Act;
13. equipment or machinery that contains regulated substances for operational purposes such as hydraulic lift tanks and electrical equipment tanks;
14. any UST system that contains a de minimus concentration of regulated substances;
15. any emergency spill or overflow containment UST system that is expeditiously emptied after use.

WHAT IS A REGULATED SUBSTANCE

The registration requirements apply to underground storage tanks that contain regulated substances. This includes:

A. Any substance defined as hazardous in Section 101(14) of the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA), with the exception of those substances regulated as hazardous waste under Subpart C of RCRA.
B. Petroleum, e.g., crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure.

PENALTIES

After October 1, 1989, any owner who knowingly fails to notify or submits false information is subject to a minimum civil penalty of $7,500, but not to exceed $10,000, for each tank for which registration is not given or for which false information is submitted.

AUTHORIZED REPRESENTATIVE

If the owner designates an authorized representative in Section I, the owner must sign the form in Section VIII. The authorized representative shall receive all correspondence regarding the underground storage tank. If no authorized representative is designated, all correspondence shall be sent to the owner.

Mail completed form and fee to: Iowa Department of Natural Resources, Licensing Department, 900 E. Grand, Des Moines, IA 50319-0034, Attn: Tanks

NATURAL RESOURCES
DEPT.
JUL 22 10 54 AM '89

Complete all required information (Sections I, II, III, IV, V, VI, VII and sign completed form. Include required fees. Please type or print in ink all items except "signature" in Section VII and VIII. Use a separate form for each location containing underground storage tanks. If more than five tanks are owned at one location, attach additional copies of pages 2 and 3.

It is important that the location of this sti-P$_3$® tank is adequately described so that monitoring of the tank can be facilitated. Indicate tank location with respect to other tanks and structures, and identify street names.

STI Watchdog® Program Monitoring Results should be mailed to:
