Wayne Krug
Quarry Services, Inc.
P. O. Box 1375
Fort Dodge, IA 50501

Subject: **Notice of Violation** – Operation of a Rock Crusher without a Construction Permit, Fort Dodge, Webster County

Dear Mr. Krug:

On July 31, 2013, I observed that a gypsum crusher had been operating at the NCIRSWA Landfill in Fort Dodge. On August 2, 2013, I sent you a Letter of Inquiry asking if Quarry Services, Inc. was operating the crusher and inquiring whether an air construction permit had been obtained.

We discussed this matter via telephone on August 8, 2013, and you confirmed that Quarry Services, Inc. had operated the gypsum crusher and that no air construction permit had been obtained. **Operation of a rock crusher without having obtained an air construction permit is in violation of Rule 567 IAC 22.1(1).**

If you have not already done so, you must call contact DNR's Air Quality Bureau at 877-247-4692 (877 AIR IOWA) to begin the application process. Presuming that Quarry Services, Inc. makes good faith efforts to properly permit the crusher in a timely manner, DNR does not intend to pursue an enforcement action on this matter.

Please contact me at 641 424-4073 or david.miller@dnr.iowa.gov with questions concerning this matter.

Sincerely,
DNR FIELD SERVICES & COMPLIANCE BUREAU
