Subject: **Notice of Violation** – Prohibited Discharge
Complaint ID #34743; Cerro Gordo County

Dear Ms. Bumgardner:

As you know, on January 13, 2025, this office was notified of an oil sheen on Calmus Creek. This oil was determined to originate from the finish mill on Heidelberg Materials property and discharged to Calmus Creek at Outfall 002 of NPDES permit #17001000.

The release of oil to a Water of the State is a violation of Iowa Code 455B.186 which prohibits the discharge of a pollutant to a Water of the State unless authorized by a permit.

I understand that all oil recovery booms were removed from Calmus Creek on March 11, 2025; thank you for your attention to this matter. No further enforcement action is planned at this time, but please be advised that future prohibited discharges may result in referral to the Department's legal section for further enforcement.

If you have any questions regarding this matter, please contact me at 641-424-4073.

Sincerely,

FIELD SERVICES & COMPLIANCE BUREAU
