

D & D Recycling

1175 220th Street, Pella, Iowa 50219

March 3, 2011

Stoves, dishwashers and water heaters in the northwest corner of the staging area.

Furnaces on the northeast corner of the staging area.

Mr. Deheer was informed that appliances should not be dumped from the truck but “eased” to the ground to avoid damaging capacitor and mercury units. Units are to be arranged in a single layer and not stacked until after they have been demanufactured.
