FROM: Michelle Johnson *mf*
SUBJECT: E-Farm PCS FUP, Duane Johnson Farm
33813 Martin Ave, Parkersburg, IA; Butler County

On 10/07/10 I stopped at the above-referenced location to document progress on the removal of over-applied PCS. I talked to Duane Johnson on 10/06/10 regarding the status of the site, and he told me the PCS was removed on 10/04/10 and 10/05/10. He said the rocks were going to be removed by the end of the week. He said winter rye will be planted on the site this fall, and then a crop next spring.

I observed the PCS had been removed from the site. I called Duane and told him the site appeared to be in very good condition, and that I may stop at the site again after the rocks are removed for a final inspection.
