Kayla,

Good morning. I received the letter about the incident investigation so I wanted to respond to the questions that are on this letter.

1. An employee failed to follow our proper clean out procedure and tried to save time.
2. Proper retraining of the employee involved and the supervisor that is in the barn has been done to insure that this incident does not happen again. Moving forward we are working on outfitting the light trap housing to make it easier and faster for our employees to retrieve them and manually clean them so we do not see this issue again.

If there is anything else at all that you may need please do not hesitate to contact me via phone or by email. Have a great day.

Regards,

Cody
