SUBJECT: Correction to Letter Dated April 12, 2017 - Proposed Changes to Monitoring to Semi Annual Sample Collection
Magellan Midstream Partners, LP, Des Moines Terminal at 2503 SE 43rd Street in Pleasant Hill, Iowa
Spill Number: 030210-AHB-0849

Dear Ms. Tittjung:

On April 12, 2017 we sent a letter accepting proposed changes to the monitoring plan from quarterly to semi-annual sample collection for the above referenced site and spill number. The letter incorrectly stated groundwater samples collected in February would be analyzed for BTEX (Benzene, Toluene, Ethylbenzene and Xylenes) and for TEH (Total Extractable Hydrocarbons) and samples collected in August would be analyzed for TEH only. The letter should have stated groundwater samples collected in February would be analyzed for TEH only and samples collected in August would be analyzed for BTEX and TEH.

This letter is being sent to correct that error. Starting with the first quarter of 2017 groundwater sampling will be done on a semi-annual basis collected in February and August each year. ***Groundwater samples collected in February will be analyzed for TEH only and samples collected in August will be analyzed for BTEX and TEH.***

You may contact Bill Gibbons (515-725-0335; bill.gibbons@dnr.iowa.gov) or this office with any questions or comments.

Sincerely,

Ted Petersen
Supervisor, Field Office #5
