Paged to fire at Sedore Sanitation 28942 Hwy. 16 Stockport, Iowa:

Arrived on scene to find three teenage minors onsite with a large fire to SouthWest Corner of property. Teens stated at this time I could leave as they had permission for the fire and that their dad said it was alright. I (Max Harlan) informed them that we had been paged to the location from a concerned by passer and that the fire was too large to be safe as a bonfire and recommended that we extinguish. As I was speaking with them I noticed there were debris/items in the fire pile other than wood and that the smoke was way too black for just lumber scraps.

I then further questioned the teens what was in the fire? They informed me nervously that their were shingles and other things in the fire besides lumber. I stated at that time we would need to extinguish the fire due to safety issues and hazardous materials that were being burnt. Our Fire Chief Frank Nelson then came over to me and instructed me to have a crew extinguish the fire. I proceeded to brief extinguish crew and we deployed a hose line. Just as we got ready to apply water and foam Frank asked me to wait. I then noticed that he was on a cell phone. Frank finished his conversation and instructed me to give the order to pack it up and that we were leaving the scene as the land owner had called and stated that we were not going to put out his kids fire and that if we did; we were all going to pay and Troy's final statement to Frank was that we all were trespassing and that if we didn't leave immediately he was calling the Sheriffs department and we were all going to be charged with Trespassing. We packed everything up at this time and let dispatch know (VBC Sheriffs office) that the fire was out of control but we were ordered off the property. We also informed dispatch with us not being able to be on the property that we would not be able to provide fire protection for this location/address at this time.
