**To:** Heiderscheit, Mark [DNR]  
**Subject:** Call from Tim Kahl - Lowden

Tim called on 7/30 regarding the SW com you investigated last week. He stated he removed the drywall and other SW from along the creek bed and will be taking it to the landfill for disposal. Told him you would likely want receipts. He allegedly didn't place the stuff there and will try and put up some detourants to keep other from going onto his property. Apparently he is a roofing contractor and has access to a dump box and reportedly goes to the transfer station weekly anyway. You can call him if you have questions.
