Re: Solid Waste Complaint Nos. 10213, 10234, 10236, 10250
Loess Hills Regional Sanitary Landfill
Operating Permit No. 65-SDP-01-72
Malvern, Mills County, Iowa

Dear Mr. Crockett:

As you are aware, Dan Stipe, FO4 Supervisor, and I visited your facility on July 22, 2010, in response to four anonymous complaints regarding the landfill access road. We visited the problem area and I obtained the following photographs:

Figure 1

Figure 3

Loess Hills Landfill
SW Complaint Nos. 10213, 10234, 10236, 10250
Page 3 of 3

During our visit, we learned that you have concrete material onsite to construct a base for this area of the road and have a contractor ready to lay the crushed rock surface. In the meantime, trucks are pulled up the hill as needed and there is an additional area where they can dump should the mud get too deep.

Later that day, you provided an email update of repairs with photos. It was anticipated that repairs would be completed by Monday or Tuesday, weather permitting.

I will revisit at a later date. If you have questions, please contact me at 712/243-1934.

Sincerely,

Holly Vandemark
