Madison, WI 53718

Administrative Order No. 2016-WW-08-A1 was issued to Interstate Power and Light Company-Lansing Generating Station (IPL). Following the issuance of this order, the Department of Natural Resources (Department) issued an amended National Pollutant Discharge Elimination System (NPDES) permit on March 1, 2021. IPL is in compliance with its NPDES permit and the prior order is no longer necessary. Therefore, the Department has determined that it is appropriate to rescind 2016-WW-08-A1.

The Administrative Order is hereby Rescinded.
