All,

DNR has reviewed the submitted covenant for the closed City of Ames landfill. DNR Legal, and DNR Solid Waste have accepted the language, use restrictions, and exhibits. I have printed a copy and submitted it to DNR Legal. They will have Director Lyon sign it and will then forward it to City of Ames.

Thanks

Matt,

Attached for IDNR review and comment is a draft copy of an Environmental Covenant for the City of Ames SLF, IDNR Permit No. 85-SDP-08-88C. The attached document has been reviewed by City staff.

As stated in your March 29, 2021 letter, groundwater and gas monitoring activities at the site have been suspended while progress is being made toward the implementation of the Environmental Covenant.

Please let us know if there are any comments on the Environmental Covenant.

Respectfully,

Doug
